

特殊机型（定向设计）

Special type (special design)

◆ 防爆型滤油机

可以设计生产各种防爆等级的防爆滤油机，防爆等级为隔爆型，dⅡBT4，dⅡCT4。
Anti-explosion oil purifier
Can be designed to produce various grades of anti-explosion oil purifier, anti-explosion grades is explosion suppression, dⅡBT4, dⅡCT4.

◆ 封闭式滤油机

可以设计生产各种封闭式滤油机、篷布式滤油机、车厢式滤油机，特别实用于室外、户外环境使用。
Closed type oil purifier
Can be designed variety of closed-type, tarpaulin-type, trailer-type, particularly usefull in outdoor environments.

◆ 拖车式滤油机

可以设计生产各种拖车式滤油机，实用于户外和需要远程运输作业使用。
Trailer-type oil purifier
Can be designed variety of trailer-type oil purifier, usefull for outdoor and long-distance transportation operations.

◆ 远程红外线无线遥控系统

采用远程红外线无线遥控系统，操作简便、特别适合在一些不宜操作工况，操作人员可选择最佳角度，避开死视角、污染严重的操作位置，杜绝操作员受安全的侵害。
Remote infrared remote control system
Remote infrared remote control system, easy to use, particularly difficult for operator to operate in some areas, the operator can choose best place, where operation is difficult to avoid and serious pollution of operating areas. avoiding harm to operator.

◆ 系统联机组态监控/DCS控制系统

可以与总控制系统（室）、DCS控制系统进行远程组态监控操作。具有数据分析，故障记录，故障分析、时时监控、历史数据保存及分析、运行曲线分析等。并且可设置RS485/RS232/RJ45通讯接口，便于计算机联网以实现远程维护及控制，实现数值化操作。
System connected with monitoring/DCS control system
Can be connected with total control system, and DCS control system for remote monitoring operation. it has data analysis, fault records, fault analysis, constant monitoring, save and analysis of historical data, analysis of running curve etc. and can be set RS485/RS232/RJ45 communication interface for networks, to facilitate remote maintenance and control, numeral operation

封闭式拖车滤油机
Close-type with trailer oil purifier

防爆型滤油机
Anti-Explosion oil purifier

封闭式高效真空滤油机
Close-type high efficient vacuum oil purifier

敞开式拖车滤油机
Open-type with tirailer oil purifier

油罐
Oil tank

真空机组
vacuum group
